Outdoor Living

BY ARBORSDIRECT

WHY FIBERGLASS?

Arbors Direct® structural fiberglass pergolas are a great way to enjoy the great outdoors, by adding a shade structure to any outdoor space, pool or spa area. Designed for both beauty and strength, pergolas can turn a sunny backyard into an affordable luxurious retreat for entertaining or relaxing. Structural fiberglass allows for the design and construction of pergolas that are far superior to those that have come before, transforming a boring, under-utilized backyard into an elegant outdoor oasis.

Imagine all the comfort of indoor living, in the ultimate outdoor living room, complete with a fireplace hearth, TV, and kitchen for hosting family and friends. Hollow beams and rafters are aesthetically beautiful and engineered to allow for electrical wiring and water tubing to be hidden for ceiling fans, electrical outlets, lighting, sprayers and misters. A virtual entertainment haven to be enjoyed year-round!

WHY FIBERGLASS?

- Ease of Installation
- Low Maintenance
- Will not rot, check, or split
- Weather and Insect Proof
- Stability
- High Strength to Weight Ratio
- Pound for Pound Stronger than Steel
- Corrosion Resistance
- Consistency in appearance
- Will not expand or contract with temperature changes
- Hollow beams allow for internal wiring
- Support any type of vine or climbing plant
- Prefinished white with ChromaGuard™ engineered coating
- Limited Lifetime Warranty

STOCK PERGOLA

Arbors Direct® manufactures fiberglass pergola kits using pultrusion technology to produce the strongest yet lightest structures available with a Limited Lifetime Warranty. Our structural fiberglass components are strong, light weight, and provide a higher level of aesthetic quality than vinyl or wood pergolas.

Pre-finished with our white Chromaguard™ Coating, Arbor-Loc™ tie down system, and our no seam Spartan Rafter Tails. They are available with no-taper round, or square pultruded fiberglass columns without neck moulding. Optional wind-load/decks plates are available.

CHROMAGUARD™

Inspired designer colors to match your style.

Formulated specifically for Arbors Direct®, ChromaGuard™ is a strong, durable engineered coating that seals and bonds to structural fiberglass like a protective shell, to ensure a long lasting quality finish. ChromaGuard is applied as a uniform finish at the factory, so there is no extra work required by the installer.

Arbor's Direct offers eleven inspired designer color formulas in Cannon, Estate, Java, Moss, Saddle, Cream, Fog, Latte, Linen, Tricorn, and White, our most popular color request.

Easy to install, easy to maintain, with a limited lifetime warranty.

Your pergola is more than just shelter from the sun. Select from thoughtful details that complement your individual style and architecture. Our decorative tail options give you a range of style choices when customizing.

From Spartan to Roman, Kensington to Windsor, or Craftsman to Napa, our thoughtful details complement your personal style. Our stock pergola kits are decorated with the popular Spartan style tail rafter. Routed into the heart of the material our details are structurally sound and handsome. Arbors Direct can also create a custom tail rafter to meet your exacting requirements and complement your style.

PREDESIGNED STANDARD SIZES

Since 2005, Arbors Direct® has been building custom arbor and pergola shade structures for landscape, pool and spa areas. Subsequently, the in-house design experts recognized that many requests were for similar sized structures. In response, Arbors Direct developed a line of predesigned structural fiberglass Freestanding and Attached Kit Pergolas.

AN ISLAND OASIS RIGHT IN YOUR OWN BACKYARD.

Freestanding Structural Fiberglass Pergolas quickly transform a blazing hot and uninspired backyard into an affordable luxurious retreat for entertaining or a private hideaway for relaxing. Imagine all the comfort of indoor living, in the ultimate outdoor living room, complete with a fireplace hearth, TV, and kitchen. Entertain friends and family, watch the game with your neighbors, or just take a quiet nap on your own private island oasis.

ACCENTUATE THE POSITIVE WITH AN EXTENSION OF YOUR LIVING SPACE OUTDOORS.

Attached Structural Fiberglass Pergolas allow you to expand your indoor living space outdoors. Create a charming extension of you home's livable square footage by adding interest with an impressive attached structural fiberglass pergola to your patio or deck space. Cook in and dine out… right outside your own door. Not only practical and convenient, attached pergolas add visual contrast and beauty to your view and home. Sit on the porch and enjoy watching the magic of sunrise or sunset under the cover of your beautiful attached pergola.

Let us turn your outdoor dreams into a reality.

Pergolas are a great way to add a shade structure to any outdoor space, pool or spa area. Designed for both beauty and strength, pergolas can turn any backyard into an affordable luxurious retreat for entertaining friends and family, grilling and watching the game, or simply relaxing in the great outdoors. Arbors Direct is the leading manufacturer of cutting-edge structural fiberglass arbors and pergolas for residential and commercial applications. Fiberglass has been used to replace wood in residential and commercial construction for decades. Arbors Direct has gained a reputation for outstanding quality and service. Innovating the latest breakthrough in pultrusion technology in 2005, pultrusion technology produces the strongest yet lightest structures available with a reasonable price-point. Now, structural fiberglass allows for the construction of pergolas that are far superior to those that have come before, transforming a hot and sunny backyard into an elegant outdoor experience.

Our in-house design team is ready to work with you to design a custom pergola that meets your exact needs. We offer a wide selection of colors, column types, sizes, and shapes to fit your space and style. Our design software, Structure Studios, provides a full color video presentation when choosing a custom pergola, there is almost no limit to what can be created. To request a custom design using the form on page 10, send us your measurements, choose the perfect color(s), and columns and rafter tail design to complement your style. Arbors Direct will send a quote within 48hrs.

INTRODUCING THE MONARCH STRUCTURAL FIBERGLASS PERGOLA KIT.

Created for residential use, as cost-effective shade structure adding value to any outdoor living space. Today's buyer is willing to pay a premium for a home with an outdoor living space. Designed for both beauty and strength, Monarch pergolas can transform a boring backyard into a delightful, yet affordable, retreat, for hosting a party or barbeque, and catching up with family and friends.

Monarch pergolas are available in 12'x12' kits, with square columns. Suitable for any climate, structural fiberglass is highly durable and can support heavy vine growth, with the bonus of being insect and weather proof. The material will not expand or contract, twist, warp, or bow through the changes of the seasons. Monarch pergolas come factory primed and ready to paint.

Easy to install the pergola can be completed in a matter of hours. Relax, knowing you will enjoy your Monarch pergola for years to come, with low maintenance, and limited lifetime warranty.

TRELLISES AND EYEBROWS

Enchanting details in just a wink.

The eyebrow trellis is the perfect addition to your house. Designed to complement your architecture, it allows for filtered sunlight to add interest, and flowering vines to bring down the scale of the house, on broad areas providing overhead protection and softening any harsh architectural lines. The eyebrow trellis is a charming addition to your structure. We have designed 3 standard sizes of eyebrows.

If these sizes don't meet your needs, our in-house design team is ready to work with you to design a custom eyebrow or trellis that meets your exact needs. We offer a wide selection of colors, types, sizes, and shapes to fit your design aesthetics and space.

EYEBROWS/TRELLISES

11' Eyebrow	18' Eyebrow	20' Eyebrow
*Custom Sizes Available		

Transform a simple backyard, park, or garden into an elegant outdoor sanctuary.

Exceptionally strong, beautifully designed, and built to last, our Entry Arbors and Swing Arbors are the perfect accent to any landscaping project. Stock and Custom Kits are available for Entry and Swing Arbors. Choose from a variety of colors or custom-match the color to your specifications with square or round columns.

Developed to complement our pergolas, Entry Arbors and Swing Arbors are an excellent value and offer a lifetime of beauty and low-maintenance enjoyment. A stock Entry Arbor measures 12'x3' and comes pre-finished in white ChromaGuard™, our exclusive engineered coating. Both the Entry and Swing Arbors will support any type of vine or climbing plant and can be used in commercial applications, such as vineyards.

12' x 3' Entry Arbor	10" x 8'	Pultruded Square

Arbors Direct® Privacy Screens can turn a busy, open living or dining area into a private nook or sanctuary. These structures are ideal for creating secluded spaces around pools, spas, outdoor dining areas, or for concealing pool pumps and heating/AC units. Good privacy screens make good neighbors. Privacy screens are ideal for apartments and condominiums that share patio and balcony space. New construction and ocean front properties where corrosion can be an issue. Engineered with angled slats allowing air to circulate while maintaining the utmost privacy.

Both the 12' Freestanding Privacy Screen and a 24' Freestanding Corner Screen are beautifully designed and available with square columns. We can also design custom privacy screens to meet your specific project requirements.

Three sizes of Attached Privacy Screens are available for the 12', 14', and 16' standard stock square column pergolas as an accessory or after-market option.

SHADE CANOPY

ADD EVEN MOR-SHADE™ TO YOUR STRUCTURE!

Arbors Direct® now offers a Mor-Shade™ Canopy shade system to complement our fiberglass pergolas. Designed for ease of use our exclusive Mor-Shade Canopy slides on wired system that is ready to install out of the box. The unique modular design is easy to install, just like our fiberglass pergolas, to enhance your outdoor living experience. Designed to quickly lock individual canopy panels in place to provide shelter from the sun or remove panels as quickly when the sun goes down.

Easily open and close your canopy from either direction, control the flatness, or bellowing of each panel to suit your needs.

The combination of an Arbors Direct® Fiberglass Pergola and a Mor-Shade Canopy System is the ultimate combination of beauty, function, and versatility to cover your outdoor living room and add color to your outdoor oasis.
